SUMMARY

Self-motivated frontend developer skilled in building modern, responsive web apps using React.js, JavaScript, HTML, and CSS. Proficient in clean UI design, DOM manipulation, and reusable components. Passionate about creating user-centric, performance-optimized experiences.

PROJECTS

DreamHomes – Real estate website with property filtering
Tech Stack: HTML, CSS, JavaScript
• Created multiple pages with routing and layout design
• Used reusable cards, responsive grid, and dynamic UI

TastyBites – Multi-page food delivery website
Tech Stack: HTML, CSS, JavaScript
• Built a responsive site with reusable components and animations
• Implemented dark mode and clean UI using vanilla JS

Product Card App using React & DummyJSON API
Tech Stack: React, Tailwind CSS, DummyJSON API
• Fetched and displayed product data dynamically using DummyJSON API
• Designed responsive product cards with image, title, price, and rating
• Used Tailwind CSS for modern UI, transitions, and grid layout
• Implemented clean, reusable component structure with loading state handling

TechEdu – EdTech Landing Page
Tech Stack: HTML, CSS, JavaScript
• Designed a clean, accessible educational website using HTML and CSS and JAVASCRIPT. Added dark mode, responsive layouts, testimonials, FAQs, and newsletter sections.
